

## Joshua Schedule

### Joshua

After 40 years in the desert, Moses is no longer with the Israelites as they enter the Promise Land; they can no longer depend on him. They must depend solely on God...and on Joshua, the leader given by God to help them in their transition. Will they depend on God and be successful? Or will they depend on themselves and fail? While on the surface, this might seem a simple choice, contemporary Christians are faced with the same dilemma daily. So, let us study the book and learn how we might trust and serve God better today!
